### **Mobile Phone and Printer Ink Cartridge Recycling Scheme**

We are implementing a recycling scheme for mobile phones and printer ink cartridges in conjunction with Reciproc8™ Recycling. The scheme enables our school to do the right thing environmentally whilst at the same time gaining great benefits.

We gain points for the items that we collect. We can then redeem these points against a range of products and services specifically for schools which include; educational materials, sports equipment, conservation materials and experiences. These rewards will be used in the school's day to day activities and will help enhance the overall facilities and amenities for the pupils. Whilst we are collecting the children will also be learning about the three green Rs – Reduce, Reuse and Recycle.

We are collecting Mobile Phones, Ink Cartridges and Toners, PDAs, MP3s, MP4s, IPODs and Satellite Navigation Units. Please don't throw these items away, recycle them and help us to not only help the environment but also get some great items and experiences for free! Take 2 minutes and see what's in that drawer at home that things only ever seem to go into but never come out of! Parents can help by not only sending in items from home but also asking neighbours and colleagues at work to donate on behalf of the school. Furthermore why not ask your employer if they would consider registering their business? They can then donate their Reciproc8™ Points to us. More information on the scheme is available at [www.reciproc8.co.uk](http://www.reciproc8.co.uk) where you can also register.

The scheme is on-going so please don't forget that the more we keep collecting the more we can keep redeeming!

Yours sincerely

MRS KIMBERLEY BAKER
